

# Colorfall

## Materials List

This quilt was created loosely on a pattern by Emily Cier called "Volume." It is found in her book *Scrap Republic*. The quilt is constructed from "bricks" that are either 6.5" x 2.5" or 3.5" x 2.5". We will start making the bricks in class.

To construct the bricks, we will be "making" fabric from small scraps. Each brick should have a variety of fabric – so start saving all your little bits NOW. Even pieces as small as 1.5 x 1" can make it into your quilt. You should also cut a bunch of skinny strips – from .75" to 1.5".

To assist you in obtaining the variety of fabric that you need, I suggest that we have a strip exchange at the class. Let's say you have three different greens, but would like some more. (And you do need more!) Bring a couple extra strips of green fabric, and exchange with some of your classmates to increase your variety.

Colors needed:

White/Cream	Orange	Purple
Pink	Green	Brown/Black
Red	Blue	

Avoid multi-color fabric. You need fabric that "reads" the particular color. A few solids here and there are okay, but prints work better.

**Options:** We will also discuss other ways you can make the bricks – such as horizontal stripes, vertical stripes, single-piece, etc.

You will also need basic sewing supplies – machine, neutral thread, fabric scissors, pins, rotary cutter (in case you need to cut more strips), etc.

If you have questions before the day of the class, feel free to email me at [cholmaneee@uia.net](mailto:cholmaneee@uia.net) or call me at (909) 556-8118.
